

A DEBATE IN COSMOLOGY

THE

MULTIVERSE

THE UNIVERSITY
of NORTH CAROLINA
at CHAPEL HILL

PERIMETER INSTITUTE FOR THEORETICAL PHYSICS
SEPTEMBER 2 - 4, 2008

The purpose of this meeting is to provide a forum for scientists from various fields to discuss, debate, and stimulate progress on one of the emerging fundamental areas of theoretical physics - the idea that our observable universe is part of a multiverse.

This conference is a collaborative effort between Columbia University, Perimeter Institute and University of North-Carolina-Chapel Hill, and is the second of a series of meetings aimed at stimulating progress in outstanding topics in theoretical physics. The first meeting in this series focused on the Origin of the Arrow of Time and was held at the New York Academy of Sciences last October.

ORGANIZERS

Brian Greene, Columbia University

Justin Khoury, Perimeter Institute

Laura Mersini-Houghton, University of North Carolina-Chapel Hill

SPONSORS

Perimeter Institute

Bahnon Fund

UNC Chapel Hill

ISCAP, Columbia University

SPEAKERS

David Albert, Columbia University

Andy Albrecht, UC Davis

Tom Banks, Rutgers/UC Santa Cruz

Paul Davies, Arizona State University

Gia Dvali, New York University

James Hartle, UC Santa Barbara

Gordon Kane, University of Michigan

Laura Mersini-Houghton, University of
North Carolina-Chapel Hill

Simon Saunders, Oxford

Stephen Shenker, Stanford

Lee Smolin, Perimeter Institute

Alexey Starobinsky, Landau Institute

Rudy Vaas, University of Gießen
